Improving k-12 teacher's practice in Brazil with project-based learning and virtual tools

Professor Ulisses Araujo

Director of the Research Center on New Pedagogical Architectures University of Sao Paulo

President of the Pan-American Network of Problem-Based Learning

Implementation experiences

2010-2014

Training 2.600 k-12 teachers in São Paulo

Graduate prog. "Ethics, values and citizenship in school"

University of Sao Paulo (USP) and

Virtual University of Sao Paulo (UNIVESP)

2014-2018

BS 2.000 science teachers and 1.300 Engineers

Virtual University of Sao Paulo (UNIVESP)

Principles guiding the projects

- Blended Learning
- Friendly LMS interface, based on images not textual
- Diversity in learning
- Knowledge transmission through videos
- Collaborative environment
- Learn by doing
- Problem/Project-Based Learning and Design Strategies
