The Lemann Center for Educational Entrepreneurship and Innovation in Brazil Webinar Series 2015 will be held on June 29-30, 2015. Two sections from a virtual panel will be attended by researchers from many research domains (Education, Psychology, Information Technology, Communication and Computer Science) and other professionals with expertise in teacher training and digital culture will join the virtual panel to discuss digital competencies, the impact on human development (educational, cultural, social and professional), as well as the educational challenge in Portuguese-speaking countries.

The main goal of this event is to allow an open minded conversation about what are digital competencies and their impact on education and employability by assessing and debating collaboratively the current scenario in Portuguese speaking countries. The panelists will take into consideration the information from educational projects supported by government or by the third sector. The discussion also includes comments about the effects of including digital competencies in the formal and informal education curricula.

All sections will be held, broadcast and recorded simultaneously in Brazil, Portugal, Mozambique, Angola and Cape Verde.

Date: June 29th - 30th, 2015

Time: 09:00AM Palo Alto time zone.

To follow the live streaming, please start your connection by 8:45AM (Palo Alto time zone) using the Lemann Center link (<https://lemanncenter.stanford.edu>).
